ACCESSORIES FOR BMW G 310 R

STORAGE

SMALL TOPCASE, 30 L

The waterproof plastic topcase with a volume of 30 litres offers enough space for a helmet. The lid, which is available in Black storm metallic, Light white and Racing red, and the soft-close hinges, which allow the lid to be lowered gently, underline the high-quality appeal.

Only in conjunction with luggage carrier, topcase carrier and matching outer shell. For information on speed and load limitations, please refer to the instruction booklet. For more detailed information, contact your authorised BMW Motorrad dealership or go online at [bmw-motorrad.com](https://www.bmw-motorrad.com).

1 Black storm metallic

2 Light white

2 Racing red

LIGHT TOPCASE, 29 L

With a volume of 29 litres, the light topcase offers enough space for a helmet and convinces in everyday life as well as on short tours. The black plastic topcase is lockable, has a large reflector on the rear side and a BMW badge on the lid. The maximum load is 3 kg.

Only available in conjunction with luggage grid. For information on speed and load restrictions, please refer to the instruction booklet.

LINER FOR TOPCASE

The matching tailored liner for the topcase gets the luggage organised and facilitates loading and unloading. The carry handle and shoulder strap make the bag easy to access and transport. The practical details include the outside pocket and the three-sided zipper.

TANK BAG, 13–20 L

The tank bag made of durable polyester offers many clever details and can be extended from 13 to 20 litres as required. Extra space is available in the map pocket and two exterior pockets. The smart fastener design guarantees a secure hold and extremely practical handling.

LUGGAGE CARRIER

A topcase or other pieces of luggage can be attached to the sturdy luggage grid made of powder-coated die-cast aluminium.

To be fitted and/or enabled in a specialist workshop, ideally at your authorised BMW Motorrad dealership.

DESIGN

DECORATIVE STICKER SET

The decorative "Street" sticker set is perfectly tailored to the motorcycle and guarantees an attractive, unique look. The dynamic lines in yellow, red and blue create a modern street racer design and underline the sporty character of the machine. In addition, the rim rings of contrasting colour ensure attention.

the decorative "Wolf" sticker set is perfectly tailored to the motorcycle and creates an attractive, unique look. The lines in yellow, red and blue create a wolf motif further accentuating the dynamic design of the motorcycle. In addition, the rim rings in contrasting colour ensure lots of attention.

1 Decorative Street sticker set

2 Decorative Wolf sticker set

LED INDICATORS

A shining example: The beautifully designed LED indicators with white turn indicator glass convince with their slim design and modern lighting technology. They respond much faster than incandescent lamps and are virtually wear-free. This provides a clear safety advantage in road traffic.

Note the differences in national-market versions.
To be fitted and/or enabled in a specialist workshop,
ideally at your authorised BMW Motorrad dealership.

ERGONOMICS & COMFORT

HIGH SEAT

The high seat has a seat height of 850 mm. This means that even tall riders enjoy a comfortable knee angle and a relaxed and comfortable seat position that helps prevent signs of fatigue.

High seat
Seat height 850 mm

LOW SEAT

15 mm lower than the standard version, this low seat makes climbing on off easier and keeps the ground within easy reach. Many riders feel safer thanks to the reduced seat height, because they can manoeuvre and control their motorcycle more easily. The high-quality surface material in black corresponds to the standard equipment.

Low seat
Seat height 820 mm

ADJUSTABLE HANDBRAKE LEVER / CLUTCH LEVER

The ergonomically optimised handbrake and clutch levers can be adjusted in four steps making it easy to attain the preferred grip width. The two-tone look with black powder coating and a chrome-plated adjustment wheel emphasises the individuality of the motorcycle.

HEATED GRIPS AND SWITCHES

Warm hands despite lower temperatures: This is ensured by the electric heating grips with three-stage control. This enhances comfort and also improves safety, because warm hands and more feeling in the fingers simply improves vehicle control. In addition to heating stages 1 and 2, the rider has the option of activating the outside temperature-controlled automatic transmission. The heated grips are operated via a multifunction switch on the right handlebar controls, which can also be retrofitted.

For more detailed information, contact your authorised BMW Motorrad dealership or go online at [bmw-motorrad.com](https://www.bmw-motorrad.com).
To be fitted and/or enabled in a specialist workshop,
ideally at your authorised BMW Motorrad dealership.

2 Clutch lever, adjustable

NAVIGATION & COMMUNICATION

BMW MOTORRAD NAVIGATOR VI

With the multifunctional Navigator VI, route planning becomes child's play. The system with 16 GB flash memory and a five-inch touch screen always shows the right way. Thanks to the circular polarisation filter (CPOL), the waterproof display is easy to read even in direct sunlight. The high-resolution screen in a casing similar to a smartphone provides all the essential information and ensures that you can see the big picture required in every situation. Numerous additional functions make planning and touring an exciting experience. Plan your routes can be created according to your personal preferences and enjoy driving on winding and quiet side roads. In unknown terrain, the "round trip" option is a good choice as it reliably guides the rider at the end of the tour back to the starting point. The Bluetooth connection to the BMW Motorrad communication system and the optional Smartphone Link app enable multimedia on the go: navigation announcements, telephone calls and music streaming as well as the retrieval of weather forecasts or traffic jam information are no problem. Navigation preparation adds further functions such as "My Motorcycle", and the multi-controller on the handlebars offers an alternative control option. Choose the pre-installed map data, and you will always be up to date thanks to lifelong, free map updates.

For more detailed information, contact your authorised BMW Motorrad dealership or go online at bmw-motorrad.com.

BMW MOTORRAD SMARTPHONE CRADLE

BMW Motorrad's robust smartphone cradle provides a safe and protected place for your smartphone. This means that useful functions such as navigation information and online information can also be used while you are on the move. Thanks to the handy charging function, your smartphone is also always ready for action on extended bike tours.

Only in combination with bracket for BMW Motorrad navigation systems.

SAFETY

HAND PROTECTORS

The hand protector, made of impact-resistant and UV-resistant plastic, also protects the operating elements against branches and stone chips while riding off-road, and is aerodynamically tailored to the vehicle. On the road, the wind and weather protection offered by the protectors is also impressive: hands and fingers stay longer dry and warm even at low temperatures.

ENGINE PROTECTION BAR

The robust engine protection bars, made of polished stainless steel, reliably protect the bike against damage without restricting the rider's freedom to lean the machine. The robust tube construction will even take hard knocks and prevent major fall damage off-road and on asphalt.

Both the combination with the standard engine spoiler and with the aluminium bash plate is possible.

ALUMINIUM BASH PLATE

The robust and lightweight aluminium engine guard effectively protects the lower area of the motorcycle against stone chips and damage, such as when bottoming out. It is wider and longer than the standard engine guard. Its elegant design emphasises the high-quality character of the bike. (Model shown: G 310 GS)

SPRAY GUARD COVER (NOT SHOWN)

The rear-wheel cover with splash protection protects the rear of the vehicle from dirt both on wet roads and off the road, for example when riding through mud puddles. This keeps the rear light and number plate, but also a mounted topcase and other luggage items protected from dirt for longer.

MAINTENANCE & TECHNOLOGY

POWER SOCKET

Electronic devices can be connected to the vehicle electrical system via the 12V power socket. One example of this is the BMW USB charger, which can be used to charge and operate mobile phones and MP3 players with an appropriate interface while riding.

To be fitted and/or enabled in a specialist workshop, ideally at your authorised BMW Motorrad dealership.

ACCESSORIES FOR BMW F 900 R

STORAGE

SMALL TOPCASE, 30 L

This waterproof plastic topcase with a painted lid and 30-litre volume offers high-quality workmanship and enough space for a helmet.

Topcase lid outer shell, asphalt metallic matt (not shown)

Only in conjunction with luggage carrier, topcase carrier and matching outer shell. For information on speed and load limitations, please refer to the instruction booklet. For more detailed information, contact your authorised BMW Motorrad dealership or go online at bmw-motorrad.com.

1 Topcase lid outer shell, Black storm metallic

2 Topcase lid outer shell, Light white

3 Topcase lid outer shell, Racing red

BACKREST PAD FOR SMALL TOPCASE

Thanks to the comfortable backrest pad for the small topcase, the passenger can enjoy improved comfort both on short trips and on long tours.

LINER FOR TOPCASE

The matching tailored liner for the topcase gets the luggage organised and facilitates loading and unloading. The carry handle and shoulder strap make the bag easy to access and transport. The practical details include the outside pocket and the three-sided zipper.

Original BMW Motorrad equipment is available from your authorised BMW Motorrad dealership.

SOFT BAG

The high-quality soft bag made of durable polyester convinces with practical details and a storage volume of 20 litres. Features such as the waterproof liner, the all-round zipper, the carrying handle and the quick-release fastener for easy mounting on the motorcycle ensure a secure hold and practical handling.

The sturdy case holder allows easy and secure installation of the soft case. Even if the case is not mounted, the discreet black holder is hardly noticeable on the bike.

1 Soft bag NEW 2 Soft bag case holder NEW

LUGGAGE GRID NEW LARGE TANK BAG NEW SMALL TANK BAG NEW

A topcase or other pieces of luggage can be easily and securely attached to the sturdy luggage carrier made of powder-coated die-cast aluminium. Since the luggage carrier is attached to the motorcycle in a vibration-free manner, the riding characteristics improve noticeably with the topcase mounted, especially at higher speeds.

The tank bag, made of durable polyester fabric, offers many intelligent details. Its volume can be extended from 11 to 16 litres as required. Extra space is available in the map pocket and exterior pockets. The smart belt fastener design guarantees a secure hold and extremely functional handling.

The small, durable tank bag with belt attachment is the ideal companion for short trips. The main compartment with removable waterproof liner, the cable duct, the storage space volume of 5.5 litres, the carry handle and the removable shoulder strap are handy qualities that leave almost nothing to be desired.

ATTACHMENT ELEMENT FOR TANK BAG (NOT SHOWN)

NEW

A BMW Motorrad tank bag can be attached quickly and securely to the vehicle using the model-specific fastening elements. The two-part fastening is mounted at the front and rear of the motorcycle using a strap or screw connection. The tank bag then only needs to be positioned and fastened with buckles.

DESIGN

OPTION 719 SILVER MIRRORS

The Option 719 silver-coloured mirrors are made of milled aluminium and highlight the high-quality character of the bike. The low-vibration design and aerodynamic shape ensure excellent visibility. The attractive design also creates a strong individualisation effect.

ADJUSTABLE RIDER FOOTRESTS

NEW

The rider footrest made of black anodised aluminium combines a dynamic look with ergonomics and sportiness at the highest level. Thanks to the ribbed tread surface and three-step height adjustment, it provides additional support and optimum vehicle control.

FOLDING CLUTCH AND BRAKE LEVERS

NEW

The handbrake lever can be adjusted in five positions for the preferred grip range and, thanks to the folding mechanism, has a defined folding moment.

The clutch lever can be adjusted in three positions for the preferred grip range and, thanks to the folding mechanism, has a defined folding moment.

To be fitted and/or enabled in a specialist workshop, ideally at your authorised BMW Motorrad dealership.

CLUTCH LEVER AND HANDBRAKE
LEVER PROTECTORS

NEW

The clutch and handbrake lever protectors make a clear statement of uncompromising sportiness on the road. The curved bows made of aluminium and plastic protect the clutch lever and handbrake lever on the handlebars from being unintentionally actuated due to contact with another vehicle or damaging the bike if it falls over.

ENGINE SPOILER

The elegant three-part engine spoiler made of shatterproof and UV-resistant plastic ensures an individual sporty look. The side parts painted in Granite grey metallic, San Marino blue metallic and Racing red create a striking visual accent.

Expected availability: from Q3/2020.

1 Engine spoiler,

NEW

ERGONOMICS & COMFORT

LOW SEAT

NEW

The low seat makes it easier to get on and off and improves ground accessibility. Many riders feel safer thanks to the reduced seat height, because they can manoeuvre and control their motorcycle more easily. The ergonomics of the low seat are designed for long tours. The high-quality surface material in black corresponds to the standard equipment.

HIGH SEAT

NEW

The high seat has a seat height of 835 mm thanks to the additional padding. This means that even tall riders enjoy a comfortable knee angle and a relaxed and comfortable seat position that helps prevent signs of fatigue even on long journeys.

WINDSCREENS

The tinted Pure windscreen as cockpit trim panel underlines the bike's sporty appearance.

The scratch-resistant coated high windscreen is higher and wider than the standard version and therefore offers noticeably improved wind and weather protection as well as greater overall touring comfort. Especially on fast motorway stretches, the high windscreen provides relief for the upper body and provides more relaxed and fatigue-free kilometres.

1 Pure windscreen

NEW

3 High windscreen

NEW

CENTRE STAND

NEW

The stable centre stand ensures a safe stand for the motorcycle even on slopes and offers advantages, for example, when refuelling, mounting cases and topcases or checking tyre pressure. The motorcycle also takes up less space when parked upright.

HANDLEBARS, HIGH

NEW

The high handlebars are 27 mm higher compared to the standard and allow a more upright sitting position. The resulting overall improvement in ergonomics improves the riding experience and reduces signs of fatigue. The rider simply feels safer on the bike.

LOW-SLUNG (NOT SHOWN)

NEW

The changes in the chassis resulting from the lowered suspension reduce the vehicle height and the seat height. This means that even smaller riders can enjoy improved stability and have better control over their machine when manoeuvring.

SHIFT ASSISTANT PRO (NOT SHOWN)

The shift assistant Pro allows shifting up and down in almost all load ranges and engine speed ranges without actuating the clutch or throttle. The assistant thus ensures noticeably reduced shifting times, a relief of the clutch hand and thus greater comfort and dynamics.

To be fitted and/or enabled in a specialist workshop, ideally at your authorised BMW Motorrad dealership.

RETROFIT SET OF HEATED GRIPS AND SWITCHES (NOT SHOWN)

No more cold hands: this is ensured by the electric heated grips with multi-stage control. They increase comfort and at the same time bring more safety, because with warm hands and more feeling in their fingers, the rider simply has better control of the motorcycle - on cold days as well as when riding in the rain.

For more detailed information, contact your authorised BMW Motorrad dealership or go online at [bmw-motorrad.com](https://www.bmw-motorrad.com). To be fitted and/or enabled in a specialist workshop, ideally at your authorised BMW Motorrad dealership.

RETROFIT SET FOR CRUISE CONTROL (NOT SHOWN)

NEW

The electronic cruise control can be activated from 30 km/h and keeps the riding speed constant. This makes it possible to enjoy longer motorway stretches in a relaxed style. The function is deactivated on braking, and the selected speed is automatically adopted after activating the Resume button.

NAVIGATION & COMMUNICATION

BMW MOTORRAD NAVIGATOR VI

With the multifunctional Navigator VI, route planning becomes child's play. The system with 16 GB flash memory and a five-inch touch screen always shows the right way. Thanks to the circular polarisation filter (CPOL), the waterproof display is easy to read even in direct sunlight. The high-resolution screen in a casing similar to a smartphone provides all the essential information and ensures that you can see the big picture required in every situation. Numerous additional functions make planning and touring an exciting experience. Plan your routes can be created according to your personal preferences and enjoy driving on winding and quiet side roads. In unknown terrain, the "round trip" option is a good choice as it reliably guides the rider at the end of the tour back to the starting point. The Bluetooth connection to the BMW Motorrad communication system and the optional Smartphone Link app enable multimedia on the go: navigation announcements, telephone calls and music streaming as well as the retrieval of weather forecasts or traffic jam information are no problem. Navigation preparation adds further functions such as "My Motorcycle", and the multi-controller on the handlebars offers an alternative control option. Choose the pre-installed map data, and you will always be up to date thanks to lifelong, free map updates.

Bracket for BMW Motorrad navigation systems (not shown)

Note the differences in national-market versions.
Only available in conjunction with OE navigation preparation.
Not available in conjunction with the smartphone cradle holder or handlebar extension.
To be fitted and/or enabled in a specialist workshop,
ideally at your authorised BMW Motorrad dealership.

BMW MOTORRAD SMARTPHONE CRADLE

BMW Motorrad's robust smartphone cradle provides a safe and protected place for your smartphone. This means that useful functions such as navigation information and online information can also be used while you are on the move. Thanks to the handy charging function, your smartphone is also always ready for action on extended bike tours.

The functional BMW Motorrad smartphone cradle bracket is securely attached to the handlebar clamping block or the handlebar tube. This ensures that it can be positioned in the rider's direct field of vision. In addition, the bracket complements perfectly the cockpit area. The BMW Motorrad Navigator can also be attached to the bracket. (not shown)

Only available in combination with bracket for BMW Motorrad navigation devices.
Not available in conjunction with preparation for navigation device or handlebar riser.
To be fitted and/or enabled in a specialist workshop,
ideally at your authorised BMW Motorrad dealership.

SAFETY

RETROFIT SET FOR ANTI-THEFT ALARM SYSTEM (NOT SHOWN) NEW

Strong protection from theft: If the motorcycle is moved or struck violently, the anti-theft alarm system responds with a clearly audible signal and a flashing warning light. The acoustic and optical warning will draw the attention of passers-by quickly. The alarm system is activated automatically when the ignition is switched off.

Note the differences in national-market versions.
To be fitted and/or enabled in a specialist workshop,
ideally at your authorised BMW Motorrad dealership.

ABS PRO RETROFIT SET (NOT SHOWN) NEW

To be fitted and/or enabled in a specialist workshop,
ideally at your authorised BMW Motorrad dealership.

PRO RIDING MODES RETROFIT SET (NOT SHOWN) NEW

The Pro riding modes can be retrofitted using an enabling code. Riders without Pro riding modes therefore do not have to do without modern safety features. Retrofitting is possible with the Pro, with DTC or with ABS Pro driving modes is possible.

For more detailed information, contact your authorised BMW Motorrad dealership or go online at bmw-motorrad.com.
To be fitted and/or enabled in a specialist workshop,
ideally at your authorised BMW Motorrad dealership.
Only available in conjunction with Dynamic Traction Control (DTC)

RETROFIT SET FOR TYRE PRESSURE CONTROL (NOT SHOWN)

Tyre Pressure Control (TPC) with all functions can be retrofitted by installing the control unit. TPC provides reliable information about the current tyre pressure and warns the rider about pressure loss at an early stage. The corresponding notifications and instructions are provided by the on-board computer in the cockpit.

To be fitted and/or enabled in a specialist workshop,
ideally at your authorised BMW Motorrad dealership.

PROTECTIVE GLASS FOR 6.5-INCH TFT DISPLAY

The protective glass reliably protects the 6.5-inch TFT display from dirt, flying stones and damage. The tempered glass has an anti-glare and anti-reflective surface, so that it is still easy to read the TFT display. With BMW Motorrad inscription.

MAINTENANCE & TECHNOLOGY

OUTPUT REDUCTION
35 kW / 48 HP
(NOT SHOWN)

NEW

The power reduction retrofit to 35 kW (48 hp) is an attractive option for beginners and returning riders. This leaves nothing to be desired when it comes to riding pleasure and feeling. The engine can be brought back to its full power later on, if desired. The power reduction is carried out by means of an enabling code.

ACCESSORIES FOR BMW S 1000 R

HP PARTS

HP RIDER FOOTREST SYSTEM AND HP PASSENGER FOOTRESTS

The HP rider footrest system is adjustable in many ways and offers ergonomic qualities as well as maximum variability. The high-quality milled parts made of anodised aluminium can be adapted to a sporty riding style or different rider statures and thus ensure even better control, for example in an inclined position.

The HP passenger footrests are milled from an anodised aluminium alloy and give the bike an even sportier appearance.

To be fitted and/or enabled in a specialist workshop, ideally at your authorised BMW Motorrad dealership.

1 HP rider footrests

2 HP passenger footrests

3 HP passenger footrests, black

PRO GEAR-SHIFT ASSIST

Delivers smooth acceleration without using the clutch lever – 10 times faster than normal gear shifts.

To be fitted and/or enabled in a specialist workshop, ideally at your authorised BMW Motorrad dealership.

HP FORGED WHEELS

The black anodised HP forged front wheel offers improved handling and suspension characteristics thanks to its weight advantage. It weighs around 2 kg less than the standard wheel, which is particularly noticeable in fast S-bends.

The black anodised HP forged rear wheel is lighter than the standard wheel while maintaining optimum stability. The lower mass promotes the responsiveness of the spring strut and noticeably improves the handling characteristics.

To be fitted and/or enabled in a specialist workshop, ideally at your authorised BMW Motorrad dealership.

1 HP forged wheel, front

2 HP forged wheel, rear

HP ENGINE PROTECTORS

Aluminium engine protectors with plastic sliders provide additional protection for your engine.

To be fitted and/or enabled in a specialist workshop, ideally at your authorised BMW Motorrad dealership.

1 HP engine guard, left

2 HP engine guard, right

HP CLUTCH LEVER PROTECTOR/ HP CLUTCH LEVER PROTECTOR

These lever guards are essential on the racetrack and show the bike's racing pedigree on public roads.

HP clutch lever protector only available in conjunction with HP clutch lever.

HP AXLE PROTECTORS

The HP axle protectors made of highly abrasion-resistant plastic protect the fork and swinging arm from scratches if the bike falls or tips over.

Mounting instructions are available from your authorised BMW Motorrad dealership.

FOLDING HP CLUTCH LEVER / HP BRAKE LEVER

Made out of corrosion-resistant, anodized aluminium, the CNC-milled HP brake and clutch levers are both stylish and highly practical. Easily adjustable to provide the most suitable position for every rider, the built-in folding design also reduces the risk of bending or breaking in the event of an accident.

To be fitted and/or enabled in a specialist workshop, ideally at your authorised BMW Motorrad dealership.

1 Folding HP brake lever

2 Folding HP clutch lever

HP CARBON BOLT-ON PARTS

Superlative performance is a given with these bolt-on parts. They're elegant, exclusive and durable – each one a masterpiece in its own right. And if perfection's what you're after, you've hit the jackpot here because they're made of carbon, the ultimate lightweight material. An unbeatable combination of stylish looks and technical expertise.

Mounting instructions are available from your authorised BMW Motorrad Retailer.

6 Model shown: BMW S 1000 XR

1 HP carbon rear mudguard

2 HP carbon front mudguard

3 HP carbon tank cover

4 HP carbon airbox cover

5 HP carbon sprocket cover

6 HP carbon chain guard

Original BMW Motorrad equipment is available from your authorised BMW Motorrad dealership.

HP COVER KIT

The HP cover kit offers covers in place of the mirrors, turn indicators and licence plate holder removed during racetrack use.

Only for track use
(not homologated for road use).

HP CARBON WINDSCREEN

The high-quality HP carbon windscreen signals sportiness with its look. It is coated with UV-resistant high-gloss paintwork and is therefore particularly impact-proof. The high-quality carbon design also makes the windscreen very light and thus reduces the overall weight of the motorbike.

ENGINE SPOILER HEAT PROTECTION SHIELD (NOT SHOWN)

The heat protection shield for the engine spoilers on both sides prevents thermal damage due to the titanium exhaust system.

For simultaneous fitting of engine spoiler and HP titanium exhaust system.

USEFUL GEAR (ON AND OFF THE TRACK)

1 HP tyre heaters

3 HP rider's seat

2 HP chain tensioner

4 HP assembly stand mounting

STORAGE

REAR BAG

The robust rear bag with its waterproof main compartment and water-repellent outer pockets offers a volume from 25 to 32 litres. A padded carry handle and a shoulder strap make transport easy. The bag is perfectly adapted to the passenger seat and is securely fastened with 3-point tension straps.

Not available in conjunction with the comfort passenger seat or passenger seat cover. For information on speed and load limitations, please refer to the instruction booklet.

TANK BAG

The tank bag is made of durable PU-coated polyester fabric with a waterproof main compartment and strap fastening and holds 13 litres. The water-repellent outside pocket offers additional stowage space. The carry handle and the detachable shoulder strap are further practical features.

For information on speed and load limitations, please refer to the instruction booklet.

SADDLE BAGS

The saddlebags made of durable polyester offer around 10 litres of stowage space on each side, which can be expanded up to 16 litres. The three-sided all-round zip ensure good accessibility. The scope of supply includes two waterproof, removable liners. The Quick-Lock system enables quick installation.

For information on speed and load limitations, please refer to the instruction booklet.

BAG FOR PASSENGER SEAT

The waterproof passenger seat bag made of durable polyester with 2.5 litre stowage space can be expanded to 5.5 litres – just the right size for a day trip. The three-sided all-round zip ensure good accessibility.

Not available in conjunction with the passenger seat cover. For information on speed and load limitations, please refer to the instruction booklet.

DESIGN

LED INDICATORS

A shining example: The beautifully designed LED indicators with white turn indicator glass convince with their slim design and modern lighting technology. They respond much faster than incandescent lamps and are virtually wear-free. This provides a clear safety advantage in road traffic.

Note the differences in national-market versions.
To be fitted and/or enabled in a specialist workshop,
ideally at your authorised BMW Motorrad dealership.

PLASTIC ENGINE SPOILER IN BIKE COLOUR

Emphasizes the striking design of the BMW S 1000 R and gives it an even sportier look.

Available in Light white, Black storm metallic and Racing red.

To be fitted and/or enabled in a specialist workshop, ideally at your authorised BMW Motorrad dealership.

1 Engine spoiler in Black storm metallic

2 Engine spoiler in Light white

5 Engine spoiler in Racing red

PLASTIC SEAT HUMP COVER

An absolute must for solo riders is the seat hump cover, which is mounted on the passenger seat. The cover with a black backrest pad emphasises the sporty claim and perfectly complements the Superbike appearance of the bike.

Available in Light white, Black storm metallic and Racing red (not shown).

Not available in conjunction with the rear bag or passenger seat bag.

ERGONOMICS & COMFORT

COMFORT SEAT AND COMFORT PASSENGER SEAT

Wider than the standard version, the striking padded comfort seat is perfect for longer tours.

The passenger comfort seat is padded and wider than the standard version, and significantly increases passenger comfort.

Comfort seat
Seat height 840 mm
Step length 1,865 mm

2
Not available in conjunction with the rear bag.

1 Comfort seat

2 Comfort rear seat

HEATED GRIPS AND SWITCHES (NOT SHOWN)

Keep your hands warm in cooler temperatures with heated grips (adjustable between two settings). Also available as an equipment option.

To be fitted and/or enabled in a specialist workshop,
ideally at your authorised BMW Motorrad dealership.

PRO GEAR-SHIFT ASSIST (NOT SHOWN)

The shift assistant Pro allows shifting up and down in almost all load ranges and engine speed ranges without clutch control. The assistant thus ensures noticeably reduced shifting times, a relief of the clutch hand and thus more comfort, dynamics and riding pleasure.

To be fitted and/or enabled in a specialist workshop,
ideally at your authorised BMW Motorrad dealership.

SPORT WINDSCREEN, TINTED

The sport windscreen comes with a scratch-resistant coating and provides perfect protection against wind and rain.

Note the differences in national-market versions.
To be fitted and/or enabled in a specialist workshop,
ideally at your authorised BMW Motorrad dealership.

PRO RIDING MODES RETROFIT SET (NOT SHOWN)

The Pro riding modes can be retrofitted using an enabling code. Riders without Pro riding modes therefore do not have to do without modern safety features. Retrofitting is possible with the Pro riding modes including Dynamic Traction Control (DTC) or the Pro driving modes including curve-compatible ABS Pro.

For more detailed information, contact your authorised BMW Motorrad dealership or go online at [bmw-motorrad.com](https://www.bmw-motorrad.com).
To be fitted and/or enabled in a specialist workshop,
ideally at your authorised BMW Motorrad dealership.
Only available in conjunction with Dynamic Traction Control (DTC).

NAVIGATION & COMMUNICATION

BMW MOTORRAD NAVIGATOR VI

With the multifunctional Navigator VI, route planning becomes child's play. The system with 16GB flash memory and a five-inch touch screen always shows the right way. Thanks to the circular polarisation filter (CPOL), the waterproof display is easy to read even in direct sunlight. The high-resolution screen in a casing similar to a smartphone provides all the essential information and ensures that you can see the big picture required in every situation. Numerous additional functions make planning and touring an exciting experience. Plan your routes can be created according to your personal preferences and enjoy driving on winding and quiet side roads. In unknown terrain, the "round trip" option is a good choice as it reliably guides the rider at the end of the tour back to the starting point. The Bluetooth connection to the BMW Motorrad communication system and the optional Smartphone Link app enable multimedia on the go: navigation announcements, telephone calls and music streaming as well as the retrieval of weather forecasts or traffic jam information are no problem. Only available in conjunction with Dynamic Traction Control (DTC).
To be fitted and/or enabled in a specialist workshop,
ideally at your authorised BMW Motorrad dealership.

ACCESSORIES FOR THE BMW R 1250 R

HP PARTS

HP SPORT SILENCER

The titanium-clad HP sport silencer delivers an impressively rich sound and is a clear avowal to racing, both visually and acoustically. The high-quality slip-on model offers a weight saving of approx. 0.8 kg compared to the standard model thanks to its lightweight design.

HP HAND LEVER, ADJUSTABLE

The CNC-milled HP hand levers made of anodised aluminium combine functionality and aesthetics. The grip width can be adjusted in five steps (brake lever) or three steps (clutch lever) using a setting screw and thus adapted to individual requirements. The look with HP logo also emphasises the bike's sportiness.

HP COVERS FOR EXPANSION TANKS

The HP cover for expansion tanks made of anodised aluminium also adds to the bike's sporty character. The high-quality milled cover with HP branding emphasises the high-performance claim and also provides for an attractive customisation of the bike.

HP MIRRORS

The high-quality HP mirrors are made of milled aluminium and emphasise the sporty character of the bike. The low-vibration construction and aerodynamic shape ensure excellent visibility. The attractive design with BMW Motorrad inscription also creates a strong individualisation effect.

HP ENGINE HOUSING COVER, FRONT

The HP engine housing cover made of anodised aluminium also adds to the bike's sporty character. The high-quality milled cover and HP branding emphasise the high-performance standard and also guarantee an attractive customisation of the bike.

ADJUSTABLE HP RIDER FOOTRESTS / HP FOOT LEVER

The HP rider footrests are adjustable in three positions and offer a high level of comfort in addition to ergonomic qualities. The high-quality milled parts made of anodised aluminium can be adapted to a sporty riding style or different rider statures and thus ensure even better control, for example in an inclined position.

The milled HP foot levers made of anodised aluminium are adjustable and come in sporty black/blue/silver. Adjusted to match, the foot levers can also be operated better and more sensitively when riding on large inclines. The exclusive look with HP logo also emphasises the bike's performance-based character.

HP CYLINDER HEAD COVERS

The HP cylinder head covers made of anodised aluminium give the boxer engine an attractive appearance. The high-quality milled covers and HP branding highlight the motorcycle's sporty character. The HP oil filler plug perfectly matches the cylinder head covers.

HP CARBON HEAT GUARD

The high-quality HP Carbon cover acts as a heat protection and at the same time emphasises the sporty look of the sport silencer. The lightweight CFRP component for vehicles with and without a centre stand is sealed with UV-resistant high-gloss paint and adds a further sporty nuance.

STORAGE

TOURING CASES

With a volume of 32 litres, the high-quality hard shell touring case for installation on the left offers ample space for luggage or the motorcycle helmet. The splashproof case with painted lid can be locked and is the perfect travel companion for short or longer tours.

With a volume of 31 litres, the high-quality hard shell touring case for installation on the right offers ample space for luggage. The splashproof case with painted lid can be locked and is the perfect travel companion for short or longer tours.

For information on speed and load restrictions, please refer to the instruction booklet.

1 Touring case, Asphalt grey metallic matt

2 Touring case, Black storm metallic

3 Touring case, Granite grey metallic matt

4 Touring case, Light white

CASE RACK

The touring case can be easily and securely attached to the sturdy black powder-coated steel case rack.

LINER FOR TOURING CASES

These practical, water-resistant liners make full use of the capacity of the touring cases. Luggage can be accessed easily with one hand, and the bag can even be worn over the shoulder thanks to a detachable strap.

BAG FOR FRAME

The lined pocket made of PVC-coated polyester fabric is attached to the frame below the rider's seat and does not restrict freedom of movement. Now smaller items are also always on board while on the road. The water-repellent zip fastener with non-slip zipper allows quick access.

SMALL TOPCASE, 30 L

The waterproof plastic topcase offers enough space for a helmet with a volume of 30 litres. The lid, which is available in Asphalt Grey metallic matt, Black Storm metallic or Light White, and the soft-close hinges, which allow the lid to be lowered gently, underline the high-quality appeal.

Only available in conjunction with luggage carrier, topcase carrier and matching outer shell.
For information on speed and load limitations, please refer to the instruction booklet.
For more detailed information, contact your authorised BMW Motorrad dealership or go online at [bmw-motorrad.com](https://www.bmw-motorrad.com).

1 Topcase, Asphalt grey metallic matt

2 Topcase, in Black storm metallic

3 Topcase, Light white

LINER FOR TOPCASE

Makes loading and unloading a topcase even easier. The liner comes with a practical carry handle and can be folded flat when not in use.

LINER FOR TOPCASE

The sturdy, stylish luggage carrier is ideal for reliably securing the topcase or other large items of luggage. It acts as a full grip for the passenger and is also ideal for use as a pushing aid when manoeuvring.

TANK BAG SMALL, 5–9 L

The small tank bag made of durable PU-coated polyester fabric is the ideal companion for short trips. The waterproof main compartment with liner, the exterior pocket, the volume that can be expanded from 5 to 9 litres, the carry handle and the removable shoulder strap are functional features that meet all your everyday needs.

BAG FOR PASSENGER SEAT, 16 L

With a volume of 16 litres, this durable bag for the passenger seat offers enough storage space for the daily ride to work or for day trips. The three-sided zip fastener allows quick access, while the functional carrying handle facilitates transport.

DESIGN

OPTION 719 CLASSIC WHEEL

The high-quality Option 719 Classic wheel comes in an attractive bicolour look with elaborate contrast milling. The special workmanship of the cast wheel surface gives the machine an exclusive, high-quality character.

1 Option 719 Classic front wheel

2 Option 719 Classic rear wheel

OPTION 719 SPORT WHEEL

The high-quality Option 719 Sport wheel comes in an attractive bicolour look with elaborate contrast milling. The special workmanship of the cast wheel surface gives the machine an exclusive, high-quality character.

1 Option 719 Sport front wheel

3 Option 719 Sport rear wheel

REAR-WHEEL COVER

The milled aluminium rear-wheel cover emphasises the dynamic design of the bike. The black anodised covers with BMW Motorrad inscription and a diameter of 62mm enhance the motorcycle visually and technically.

LED INDICATORS

A shining example: the elegant LED indicators with white indicator glass match the motorcycle's look and also enhance it. Moreover, they impress with their sleek design and modern lighting technology. For example, they respond faster than classic bulbs and are virtually wear-free.

Note the differences in national-market versions.
To be fitted and/or enabled in a specialist workshop, ideally at your authorised BMW Motorrad dealership.

OPTION 719 CLASSIC COVERS FOR EXPANSION TANKS

The Option 719 Classic covers for expansion tanks set an elegant, design highlight with their silver-coloured appearance. The milled cover made of anodised aluminium bears the inscription "Option 719". Together with the other special parts of Option 719 an exclusive customisation effect is created.

To be fitted and/or enabled in a specialist workshop, ideally at your authorised BMW Motorrad dealership.

OPTION 719 CLASSIC HAND LEVERS, ADJUSTABLE

The Classic hand levers of the exclusive Option 719 are milled from an anodised aluminium alloy. The grip width can be adjusted in five steps (brake lever) or three steps (clutch lever) using a setting screw and thus adapted to individual requirements. The high-quality Billet Pack parts with Option 719 branding add value to the bike.

To be fitted and/or enabled in a specialist workshop, ideally at your authorised BMW Motorrad dealership.

OPTION 719 CLASSIC ENGINE HOUSING COVER, FRONT

The Option 719 Classic engine housing cover sets an elegant, design highlight with its silver-coloured look. The high-quality milled cover made of anodised aluminium bears the "Option 719" inscription. Together with the other special parts of Option 719 an exclusive customisation effect is created.

To be fitted and/or enabled in a specialist workshop, ideally at your authorised BMW Motorrad dealership.

OPTION 719 CLASSIC ADJUSTABLE RIDER FOOTREST / FOOT LEVER

The Classic aluminium rider footrests are adjustable in three positions and offer a high level of comfort in addition to ergonomic qualities. The high-quality milled parts of the exclusive Option 719 can be adapted to a sporty riding style or different rider statures and thus ensure even better control, for example in an inclined position.

The exclusive Option 719 Classic milled aluminium foot levers are adjustable and emphasise the classic, high-quality character of the motorcycle. Adjusted to match, the foot levers can also be operated more sensitively when riding on large inclines. The high-quality Billet Pack parts with Option 719 branding add value to the bike.

OPTION 719 CLASSIC CYLINDER HEAD COVERS

The Classic cylinder head covers of the exclusive Option 719 add design highlights with their silver-coloured appearance. The high-quality milled covers made of anodised aluminium bring the boxer engine into the spotlight. The exclusive special parts bear the inscription Option 719 and emphasise the high-quality character of the bike.

To be fitted and/or enabled in a specialist workshop, ideally at your authorised BMW Motorrad dealership.

OPTION 719 CLASSIC OIL FILLER PLUG

To be fitted and/or enabled in a specialist workshop, ideally at your authorised BMW Motorrad dealership.

OPTION 719 SILVER MIRRORS

The Option 719 silver-coloured mirrors are made of milled aluminium and highlight the high-quality character of the bike. The low-vibration construction and aerodynamic shape ensure excellent visibility. The attractive design also creates a strong individualisation effect.

CHROME-PLATED EXHAUST MANIFOLD

The chrome-plated exhaust manifold further enhances the motorcycle's appearance. This elegant manifold can be combined with the standard silencer or the HP sport silencer.

To be fitted and/or enabled in a specialist workshop, ideally at your authorised BMW Motorrad dealership.

ERGONOMICS & COMFORT

RIDER AND PASSENGER SEATS

30 mm lower than the standard version, this black rider's seat makes climbing on and off easier and keeps the ground within easy reach. This makes the motorcycle easier to manoeuvre and control.

The rider's seat in classic black has a seat height of 790 mm and an inner leg curve of 1,780 mm.

The 30 mm higher rider's seat in black is particularly suitable for tall riders. The comfortable knee angle provides the biker with a noticeable improvement in seating comfort and thus even more carefree kilometres, particularly over long distances

The Sport rider seat in black is higher and narrower than the standard seat and supports a sporty riding style thanks to its active seat position.

Thanks to a broader seat area and additional padding, the Comfort passenger seat provides noticeably greater seating comfort.

1 Low rider seat, black

2 Rider seat, black

3 High rider's seat, black

4 Sport rider seat, black

5 Comfort passenger seat, black

6 Passenger seat, black

WINDSCREENS

The clear Sport windscreen with a scratch-resistant coating noticeably relieves the wind pressure on the upper body and adds a further sporty nuance. The classic roadster look remains intact yet even fast motorway stretches or longer tours can be enjoyed with even greater relaxation.

The tinted Sport windscreen with a scratch-resistant coating noticeably relieves the wind pressure on the upper body and adds a sporty nuance. The classic roadster look remains intact yet even fast motorway stretches or longer tours can be enjoyed with even greater relaxation.

The high windscreen is approx. 80 mm higher and 45 mm wider than the Sport windscreen and therefore offers noticeably improved wind and weather protection as well as greater overall touring comfort. The scratch-resistant coating guarantees lasting transparency, while the clear look emphasises the high-quality appearance.

1 Sport windscreen

2 Sport windscreen, tinted

3 High windscreen

4 Holder for windscreen

CENTRE STAND

The stable centre stand ensures a safe stand for the motorcycle even on slopes and offers advantages, for example, when refuelling, mounting cases and topcases or checking tyre pressure. The motorcycle also takes up less space when parked upright.

ENDURO FOOTREST

The wider and longer stainless steel Enduro footrest offers more grip and allows better off-road vehicle control.

To be fitted and/or enabled in a specialist workshop, ideally at your authorised BMW Motorrad dealership.

PRO GEAR-SHIFT ASSIST

The shift assistant Pro allows shifting up and down in almost all load ranges and engine speed ranges without actuating the clutch or throttle. The assistant thus ensures noticeably reduced shifting times, a relief of the clutch hand and thus greater comfort and dynamics.

SPORTS HANDLEBARS (NOT SHOWN)

To be fitted and/or enabled in a specialist workshop, ideally at your authorised BMW Motorrad dealership.

HEATED GRIPS AND SWITCHES (NOT SHOWN)

Warm hands feel good, which is why these heated handlebar grips have two settings designed to keep hands and fingers pleasantly warm.

To be fitted and/or enabled in a specialist workshop, ideally at your authorised BMW Motorrad dealership.

PRO RIDING MODES RETROFIT SET (NOT SHOWN)

The Pro riding modes can be retrofitted using an enabling code. Riders of older motorcycles therefore do not have to do without modern safety features. Depending on the year of manufacture, retrofitting is possible with the Pro, Pro with DTC or Pro with ABS Pro, DTC and HSC modes.

To be fitted and/or enabled in a specialist workshop, ideally at your authorised BMW Motorrad dealership.

TYRE PRESSURE CONTROL RETROFIT SET (NOT SHOWN)

The electronic cruise control can be activated from 30 km/h and keeps the riding speed constant. This makes it possible to enjoy longer motorway stretches in a relaxed style. The function is deactivated on braking, and the selected speed is automatically adopted after activating the Resume button.

To be fitted and/or enabled in a specialist workshop, ideally at your authorised BMW Motorrad dealership.

RETROFIT SET FOR HILL START CONTROL (NOT SHOWN)

Stopping and starting on a slope – with Hill Start Control this is not a problem, even with a passenger and a fully loaded motorcycle. Also available as optional equipment.

To be fitted and/or enabled in a specialist workshop, ideally at your authorised BMW Motorrad dealership.

NAVIGATION & COMMUNICATION

BMW MOTORRAD NAVIGATOR VI

With the multifunctional Navigator VI, route planning becomes child's play. The system with 16 GB flash memory and a five-inch touch screen always shows the right way. Thanks to the circular polarisation filter (CPOL), the waterproof display is easy to read even in direct sunlight. The high-resolution screen in a casing similar to a smartphone provides all the essential information and ensures that you can see the big picture required in every situation. Numerous additional functions make planning and touring an exciting experience. Plan your routes can be created according to your personal preferences and enjoy driving on winding and quiet side roads. In unknown terrain, the "round trip" option is a good choice as it reliably guides the rider at the end of the tour back to the starting point. The Bluetooth connection to the BMW Motorrad communication system and the optional Smartphone Link app enable multimedia on the go: navigation announcements, telephone calls and music streaming as well as the retrieval of weather forecasts or traffic jam information are no problem. Navigation preparation adds further functions such as "My Motorcycle", and the multi-controller on the handlebars offers an alternative control option. Choose the pre-installed map data, and you will always be up to date thanks to lifelong, free map updates.

Retrofit set for preparation for navigation device (not shown)

Note the differences in national-market versions. Only available in conjunction with OE navigation preparation.

SAFETY

LED AUXILIARY HEADLIGHTS

The powerful LED additional headlights extend the illumination to ensure the required vision in poor visibility conditions. Thus they perfectly complement the main headlight. LED technology ensures virtually wear-free operation.

To be fitted and/or enabled in a specialist workshop, ideally at your authorised BMW Motorrad dealership. The additional headlights are approved for use as fog lights, and may only be used in poor weather conditions. Country-specific road traffic regulations apply.

SAFETY SCREW FOR OIL FILLER NECK

The safety screw for the oil filler neck is locked using a special Allen® key, preventing theft of the cover. At the same time, unauthorised access and contamination of the oil by foreign substances is prevented. The high-quality aluminium lock has a BMW Boxer inscription.

Safety screw for oil filler neck, black (not shown)

ENGINE PROTECTION BAR

The robust engine protection bar, made of polished stainless steel, reliably protects the cylinder area against damage without restricting the rider's freedom to lean the machine. The robust tube construction will even take hard knocks and prevent major fall damage off-road and on asphalt.

PROTECTIVE GLASS FOR 6.5-INCH TFT DISPLAY

The protective glass reliably protects the 6.5-inch TFT display from dirt, flying stones and damage. The tempered glass has an anti-glare and anti-reflective surface, so that it is still easy to read the TFT display. With BMW Motorrad inscription.

RETROFIT SET ANTI-THEFT ALARM SYSTEM (NOT SHOWN)

If the motorcycle is moved or struck violently, the system responds with a clearly audible signal and a flashing warning light.

Note the differences in national-market versions. To be fitted and/or enabled in a specialist workshop, ideally at your authorised BMW Motorrad dealership.

ABS PRO RETROFIT SET (NOT SHOWN)

To be fitted and/or enabled in a specialist workshop, ideally at your authorised BMW Motorrad dealership.

ANTI-THEFT ALARM SYSTEM RETROFIT SET (NOT SHOWN)

Tyre Pressure Control (TPC) with all functions can be retrofitted by installing the control unit. TPC provides reliable information about the current tyre pressure and warns the rider about pressure loss at an early stage. The corresponding notifications and instructions are provided by the on-board computer in the cockpit.

To be fitted and/or enabled in a specialist workshop, ideally at your authorised BMW Motorrad dealership.

DAYTIME RUNNING LIGHT RETROFIT SET (NOT SHOWN)

MAINTENANCE & TECHNOLOGY

POWER SOCKET

Electronic devices can be connected to the vehicle electrical system via the 12V power socket. One example of this is the BMW USB charger, which can be used to charge and operate mobile phones and MP3 players with an appropriate interface while riding.

To be fitted and/or enabled in a specialist workshop, ideally at your authorised BMW Motorrad dealership.
