ACCESSORIES FOR BMW S 1000 RR

M PERFORMANCE PARTS

M RIDER FOOTRESTS AND M PASSENGER FOOTRESTS

The M rider footrest system provides optimum ergonomics and sportiness thanks to its dynamic look and many adjustment options.

The M passenger footrests (not shown) are milled from an anodised aluminium alloy and give the bike an even sportier appearance.

FOLDING M CLUTCH LEVER/BRAKE LEVER

The CNC-milled M clutch lever and handbrake lever made of corrosion-resistant anodised aluminium emphasise the motorbike's sportiness in a particularly impressive manner. They are perfectly matched to the bike design and folds upwards reversibly, which reduces the risk of bending or breaking in the event of a fall.

1 Folding M handbrake lever

2 Folding M clutch lever

M CLUTCH LEVER PROTECTOR/BRAKE LEVER PROTECTOR

Essential on the race track, the M clutch lever protector and M handbrake lever protector are also a clear statement of uncompromising sportiness on the road. The curved bows made of aluminium and plastic protect the clutch lever and brake lever on the handlebars from being unintentionally actuated due to contact with another vehicle.

1 M handbrake lever protector

2 M clutch lever protector

M ENGINE PROTECTORS

The M engine protector from BMW Motorrad is made of aluminium and equipped with a replaceable plastic slip pad. It protects the engine from direct grinding on the asphalt in extreme cornering situations and thus reliably prevents the engine components from being ground to the core as well as the engine from being damaged as a result.

M AXLE PROTECTORS

The M axle protectors from BMW Motorrad protect the fork and swinging arm of the rear axle from scratches if the bike falls or tips over. The robust drop-protection pads are made of highly abrasion-resistant plastic and can take a lot if necessary. In the typical M look, they match the bike's design perfectly.

M CARBON BOLT-ON PARTS

M carbon parts are lightweight and give the bike an even sportier racing look.

1 M carbon front wheel cover

2 M carbon rear wheel cover

3 M carbon top fairing side panel

4 M carbon tank trim

5 M carbon airbox cover

6 M carbon chain guard

7 M carbon pinion cover

USEFUL GEAR FOR THE RACETRACK

When riders prepare their bikes for the race track, mirrors are needed just as little as licence plate holders. The body openings resulting from their removal are perfectly sealed by the high-quality covers in the M cover kit from BMW Motorrad.

Thus the front fairing is mounted optimally again.

The M data logger from BMW Motorrad was specially developed for optimising performance on the race track. It stores in detail all the important riding data

from speed to lean angle on 32 data channels. The data can be transferred to the PC and analysed using the corresponding software.
Expected availability: from Q3/2020.

1 M cover kit

2 M data logger

USEFUL GEAR (ON AND OFF THE TRACK)

The M remote adjuster for the handbrake was developed for the race track and allows easy remote adjustment of the braking pressure while riding.

The M seat was specially designed for the race track and enables fatigue-free riding thanks to maximum feedback. With its particularly non-slip upper material and

firm foam, it gives the rider optimum grip in the chase for the all-important tenths of a second.

To be fitted and/or enabled in a specialist workshop, ideally at your authorised BMW Motorrad dealership.

- 1 Seat height 824 mm, inner leg curve 1,827 mm
- 2 Seat height 849 mm, inner leg curve 1867 mm
- 3 Seat height 814 mm, inner leg curve 1809 mm

1 M seat

2 M seat, high

3 M seat, low

4 M remote brake lever adjuster

M OIL FILLER NECK

The M oil filler neck milled from black anodised aluminium has a white lasered M logo and highlights the sporty design with its look. The sealing cap has three bore holes which ensure an anti-twist protection for the race track.

M CARBON WHEELS

The ultimate high-tech feature. The M carbon rear wheels give the motorbike maximum riding dynamics and handling comfort on the road. The ultra-light carbon rims are each more than 2.5 kg lighter than the standard wheels, have significantly lower gyroscopic forces and make it easier and quicker to quick-turn the bike from one side to the other.

1 M carbon wheel, front

2 M carbon wheel, rear

M ASSEMBLY STAND MOUNTING

The M assembly stand mounting enables use of the rear sport assembly stand. The high-quality swinging arm adapters are simply mounted on the rear of the swinging arm and can also remain on the motorcycle while riding. With their M look, they fit perfectly into the sporty design of the bike.

M FORGED WHEELS

The forged aluminium wheels are black anodised and available in the wheel size 120/70 ZR 17 at the front and 200/55 ZR 17 at the rear. With 5 mm brake discs, they offer maximum braking performance and ensure a noticeable improvement in riding performance due to their low oscillating mass - on the racetrack as well as in road traffic.

1 M forged wheel, front

2 M forged wheel, rear

M FORK CLAMP FOR CLIP-ON HANDLEBARS
(NOT SHOWN)

The high-quality M fork clamps from BMW Motorrad make it possible to mount clip-on handlebars. The clamps are milled from a high-strength aluminium alloy and therefore especially lightweight while remaining absolutely dimensionally stable. An anodised finish ensures optimal corrosion protection in wind and weather.

M LITHIUM ION BATTERY
(NOT SHOWN)

High battery power and low weight – the high-quality M battery featuring the latest lithium-ion technology weighs only 1,288 g, a full 2,000 g lighter than the standard battery. The perfect starting aid for ambitious Superbike riders who want to invest in every single gram on their motorcycle.

STORAGE

TANK BAG, 10 L

The 10-litre tank bag from BMW Motorrad with belt attachment integrates perfectly into the bike's racing design. It does not slip and thanks to its volume that can be expanded from 6 to 10 litres, it has sufficient storage space in its waterproof, removable liner for the most important travel items.

TANK BAG, 1.5 L

The BMW Motorrad 1.5-litre tank bag can be attached to fit on the tank cover with Tenax quick-release fasteners and integrates perfectly into the bike's racing design. It does not slip and offers 1.5 litres of storage space in its waterproof, removable liner for the most important travel items.

BAG FOR PASSENGER SEAT, 10 L

The 10-litre BMW Motorrad passenger seat bag is perfectly adapted to the bike's racing design. It can be fitted precisely on the passenger seat without special brackets, remains dimensionally stable and the volume can be extended from 7 to 10 litres for more luggage - well protected in the waterproof liner.

Not with a seat hump. Use only with passenger seat.

REAR BAG, 20 L

The 20-litre BMW Motorrad rear bag is perfectly adapted to the bike's racing design. It can be fitted precisely on the passenger seat without special brackets and remains dimensionally stable. The luggage remains well protected in the waterproof removable liner even in wind and weather.

Not with a seat hump. Use only with passenger seat.

SADDLEBAG, 21 L

The saddlebags from BMW Motorrad fit perfectly into the sporty design of the bike. They can carry quite a bit of luggage in their waterproof liner. If required, the black bags including spacers can be removed quickly and easily thanks to the Quick-Lock fasteners.

Not with a seat hump. Use only with passenger seat.

DESIGN

TANK PAD

NEW

The self-adhesive tank pad absolutely reliably protects the fuel tank from scratches on the paintwork and impressively emphasises the bike's racing look with its dynamic form. It is heat, moisture and water resistant and has a strong, UV-resistant protective layer.

RR STICKER SET

NEW

The decorative sticker set of the S 1000 RR is perfectly tailored to the motorcycle and adds to the unique look. The colours white, yellow, black and silver grey for trim panel and rims match perfectly with the base coat in Racing red.

SPORTS SILENCER

A top-class feature for top quality sound. The sport silencer is made of high-quality materials and is characterised by a throaty sound and an attractive sporty appearance. The sport silencer is manufactured entirely from titanium. This slip-on silencer developed with Akrapovič is also equipped with a carbon end cap. In addition to the visual and acoustic appeal, the use of exclusive materials results in a weight advantage over the standard silencer. Power and torque are the same as the standard configuration. The side face of the sport silencer has a lasered Akrapovič inscription.

ERGONOMICS & COMFORT

TINTED WINDSCREEN

The tinted windscreen emphasises the sporty look of the motorcycle. The scratch-resistant coating ensures long-term unimpeded visibility.

HIGH WINDSCREEN

The BMW Motorrad high windscreen has the typical racing dome shape and is approx. 53 mm higher than the standard windscreen. It provides the rider with significantly better wind protection when riding in a horizontal position and, by reducing air resistance, also enables a noticeable increase in top speed.

HIGH WINDSCREEN, TINTED

The dome shaped, tinted high windscreen from BMW Motorrad increases wind protection and top speed in equal measure.

PASSENGER SEAT

The standard black passenger seat offers pleasant seating and fatigue-free comfort for the passenger even on longer tours.

PRO RIDING MODES RETROFIT SET (NOT SHOWN)

Pro riding modes make the bike fully race-ready with three additional RACE Pro modes and many racing extras. In addition to the individually configurable modes, they include three additional Core Ride Screens and extras such as Launch Control, Pit Lane Limiter, Hill Start Control Pro, Dynamic Brake Control and DTC Shift with Slide Control.

HEATED GRIPS AND SWITCHES (NOT SHOWN)

No more cold hands: this is ensured by the electric heated grips with multi-stage control. They increase comfort and at the same time bring more safety, because with warm hands and more feeling in their fingers, the rider simply has better control of the motorcycle - on cold days as well as when riding in the rain.

To be fitted and/or enabled in a specialist workshop, ideally at your authorised BMW Motorrad dealership.

ACTIVATION CODE FOR
SHIFT ASSISTANT PRO
(NOT SHOWN)

The shift assistant Pro allows shifting up and down in almost all load ranges and engine speed ranges without clutch control. The assistant thus ensures noticeably reduced shifting times, a relief of the clutch hand and thus more comfort, dynamics and riding pleasure.

SAFETY

PROTECTIVE GLASS FOR
6.5-INCH TFT DISPLAY

The protective glass reliably protects the 6.5 inch TFT display from damage. The tempered glass has an anti-glare and anti-reflective surface, so that it is still easy to read the TFT display. With BMW Motorrad inscription.

CRUISE CONTROL
RETROFITTING
(NOT SHOWN)

The electronic cruise control can be activated from 30 km/h and keeps the driving speed constant. This makes it possible to enjoy longer motorway stretches in a relaxed style. The function is deactivated on braking, and the selected speed is automatically adopted after activating the resume button.

RADIATOR GRILLE

The BMW Motorrad radiator grille reliably protects the radiator on the race track from tyre abrasion and damage due to stone chips. The two-piece polyamide grille fits the upper water cooler and the lower oil cooler exactly and its design matches the aerodynamics of the motorcycle perfectly.

ANTI-THEFT ALARM SYSTEM
RETROFIT SET
(NOT SHOWN)

The anti-theft alarm system reacts to changes in position and vibrations with an acoustic signal and flashing warning lights system. Thanks to the warning, passers-by quickly become aware. The Anti-theft Alarm System is activated automatically when the ignition is switched off; an additional remote control is not required.

Note the differences in national-market versions.
To be fitted and/or enabled in a specialist workshop,
ideally at your authorised BMW Motorrad dealership.

TYRE PRESSURE CONTROL RETROFIT
SET (NOT SHOWN)

Tyre Pressure Control (TPC) with all functions can be retrofitted by installing the control unit. TPC provides reliable information about the current tyre pressure and warns the rider about pressure loss at an early stage. The corresponding notifications and instructions are provided by the on-board computer in the cockpit.

To be fitted and/or enabled in a specialist workshop,
ideally at your authorised BMW Motorrad dealership.

ACCESSORIES FOR BMW R 1250 RS

HP PARTS

HP SPORT SILENCER

Made entirely out of titanium and stainless steel and to an exceptional level of craftsmanship, this slip-on silencer delivers a powerful rumble. It's also remarkably lightweight.

To be fitted and/or enabled in a specialist workshop, ideally at your authorised BMW Motorrad dealership. Mounting instructions are available from your authorised BMW Motorrad dealership.

HP HAND LEVER, ADJUSTABLE

The CNC-milled HP hand levers made of anodised aluminium combine functionality and aesthetics. The grip width can be adjusted in five steps (brake lever) or three steps (clutch lever) using a setting screw and thus adapted to individual requirements. The look with HP logo also emphasises the bike's sportiness.

HP COVERS FOR
EXPANSION TANKS

The HP cover for expansion tanks made of anodised aluminium also adds to the bike's sporty character. The high-quality milled cover with HP branding emphasises the high-performance claim and also provides for an attractive customisation of the bike.

HP RIDER FOOTRESTS, ADJUSTABLE

The HP rider footrests are adjustable in three positions and offer a high level of comfort in addition to ergonomic qualities. The high-quality milled parts made of anodised aluminium can be adapted to a sporty riding style or different rider statures and thus ensure even better control, for example in an inclined position.

HP FOOT LEVER, ADJUSTABLE

The milled HP foot levers made of anodised aluminium are adjustable and come in sporty black/blue/silver. Adjusted to match, the foot levers can also be operated better and more sensitively when riding on large inclines. The exclusive look with HP logo also emphasises the bike's performance-based character.

HP ENGINE HOUSING COVER, FRONT

The HP engine housing cover made of anodised aluminium also adds to the bike's sporty character. The high-quality milled cover and HP branding emphasise the high-performance standard and also guarantee an attractive customisation of the bike.

HP CYLINDER HEAD COVERS

The HP cylinder head covers made of anodised aluminium give the boxer engine an attractive appearance. The high-quality milled covers and HP branding highlight the motorcycle's sporty character. The HP oil filler plug perfectly matches the cylinder head covers.

STORAGE

TOURING CASES

With a volume of 32 litres, the high-quality hard shell touring case for installation on the left offers ample space for luggage or the motorcycle helmet. The splashproof case with painted lid can be locked and is the perfect travel companion for short or longer tours.

With a volume of 31 litres, the high-quality hard shell touring case for installation on the right offers ample space for luggage. The splashproof case with painted lid can be locked and is the perfect travel companion for short or longer tours.

For information on speed and load restrictions, please refer to the instruction booklet.

1 Touring case in Asphalt grey metallic matt

2 Touring case in Black storm metallic

3 Touring case Granite grey metallic matt

6 Touring case in Light white

LINERS FOR TOURING CASES

These practical, water-resistant liners make full use of the capacity of the touring cases. Luggage can be accessed easily with one hand, and the bag can even be worn over the shoulder thanks to a detachable strap.

CASE RACKS

The touring case can be easily and securely attached to the sturdy black powder-coated steel case rack.

SMALL TOPCASE (30 L) WITH BACKREST PAD

The waterproof topcase has a capacity of 30l and a maximum load of 5 kg – perfect for a helmet, for example. The lid has a smooth painted finish and a soft-close mechanism.

Only in conjunction with luggage carrier, topcase carrier and matching outer shell. For information on speed and load limitations, please refer to the instruction booklet. For more detailed information, contact your authorised BMW Motorrad dealership or go online at [bmw-motorrad.com](https://www.bmw-motorrad.com).

1 Asphalt grey metallic matt

2 Black Storm metallic

3 Light white

4 Backrest pad for small topcase

LINER FOR TOPCASE

Makes loading and unloading a topcase even easier. The liner comes with a practical carry handle and can be folded flat when not in use.

LUGGAGE GRID

The sturdy, stylish luggage carrier is ideal for reliably securing the topcase or other large items of luggage. It acts as a full grip for the passenger and is also ideal for use as a pushing aid when manoeuvring.

TANK BAG SMALL, 5–9 L

The small tank bag made of durable PU-coated polyester fabric is the ideal companion for short trips. The waterproof main compartment with liner, the exterior pocket, the volume that can be expanded from 5 to 9 litres, the carry handle and the removable shoulder strap are functional features that meet all your everyday needs.

BAG FOR PASSENGER SEAT, 16 L

With a volume of 16 litres, this durable bag for the passenger seat offers enough storage space for the daily ride to work or for day trips. The three-sided zip fastener allows quick access, while the functional carrying handle facilitates transport.

DESIGN

OPTION 719 CLASSIC WHEEL

The high-quality Option 719 Classic wheel comes in an attractive bicolour look with elaborate contrast milling. The special workmanship of the cast wheel surface gives the machine an exclusive, high-quality character.

1 Option 719 Classic rear wheel

2 Option 719 Classic front wheel

OPTION 719 SPORT WHEEL

The high-quality Option 719 Sport wheel comes in an attractive bicolour look with elaborate contrast milling. The special workmanship of the cast wheel surface gives the machine an exclusive, high-quality character.

1 Option 719 Sport rear wheel

2 Option 719 Sport front wheel

REAR-WHEEL COVER

The milled aluminium rear-wheel cover emphasises the dynamic design of the bike. The black anodised covers with BMW Motorrad inscription and a diameter of 62 mm enhance the motorcycle visually and technically.

OPTION 719 CLASSIC COVERS FOR
EXPANSION TANKS

The Option 719 Classic covers for expansion tanks set an elegant, design highlight with their silver-coloured appearance. The milled cover made of anodised aluminium bears the inscription "Option 719". Together with the other special parts of Option 719 an exclusive customisation effect is created.

OPTION 719 CLASSIC RIDER FOOTRESTS,
ADJUSTABLE

The Classic aluminium rider footrests are adjustable in three positions and offer a high level of comfort in addition to ergonomic qualities. The high-quality milled parts of the exclusive Option 719 can be adapted to a sporty riding style or different rider statures and thus ensure even better control, for example in an inclined position.

OPTION 719 CLASSIC ENGINE HOUSING
COVER, FRONT

The Option 719 Classic engine housing cover sets an elegant, design highlight with its silver-coloured look. The high-quality milled cover made of anodised aluminium bears the Option 719 inscription. Together with the other special parts of Option 719 an exclusive customisation effect is created.

To be fitted and/or enabled in a specialist workshop, ideally at your authorised BMW Motorrad dealership.

OPTION 719 CLASSIC FOOT LEVER,
ADJUSTABLE

The exclusive Option 719 Classic milled aluminium foot levers are adjustable and emphasise the classic, high-quality character of the motorcycle. Adjusted to match, the foot levers can also be operated more sensitively when riding on large inclines. The high-quality milled parts with Option 719 branding add value to the bike.

OPTION 719 CLASSIC HAND LEVER,
ADJUSTABLE

The Classic hand levers of the exclusive Option 719 are milled from an anodised aluminium alloy. The grip width can be adjusted in five steps (brake lever) or three steps (clutch lever) using a setting screw and thus adapted to individual requirements. The high-quality Billet Pack parts with Option 719 branding add value to the bike.

To be fitted and/or enabled in a specialist workshop, ideally at your authorised BMW Motorrad dealership.

OPTION 719 CLASSIC CYLINDER HEAD
COVERS

The Classic cylinder head covers of the exclusive Option 719 add design highlights with their silver-coloured look. The high-quality milled covers made of anodised aluminium bring the boxer engine into the spotlight. The exclusive special parts bear the inscription "Option 719" and emphasise the high-quality character of the bike.

To be fitted and/or enabled in a specialist workshop, ideally at your authorised BMW Motorrad dealership.

OPTION 719 CLASSIC OIL FILLER PLUG

The safety screw for the oil filler neck is locked using a special Allen key, preventing theft of the cover. At the same time, unauthorised access and contamination of the oil by foreign substances is prevented. The high-quality aluminium lock has a BMW Boxer inscription.

LED INDICATORS

A shining example: The elegant LED flashing turn indicators with white turn indicator glass impress with their slim design and modern lighting technology. They respond much faster than incandescent lamps and are virtually wear-free. This provides a clear safety advantage in road traffic.

Please note the specifications for different countries. To be fitted and/or enabled in a specialist workshop, ideally at your authorised BMW Motorrad dealership.

CHROME-PLATED EXHAUST MANIFOLD

The chrome-plated exhaust manifold further enhances the motorcycle's appearance. This elegant manifold can be combined with the standard silencer or the HP sport silencer.

ERGONOMICS & COMFORT

RIDER AND PASSENGER SEATS

The rider's seat in classic black has a seat height of 790 mm and an inner leg curve of 1,780 mm. 30 mm lower than the standard version, this black rider's seat makes climbing on and off easier and keeps the ground within easy reach. The rider seat in black is 30 mm higher and offers particularly tall riders noticeably better seating comfort. Thanks to a broader seat area and additional padding, the Comfort passenger seat provides noticeably greater seating comfort.

1 High rider seat, black

2 Low rider seat, black

3 Rider seat, black

4 Comfort passenger seat, black

5 Passenger seat, black

SPORT RIDER SEAT, BLACK

The Sport rider seat in black is higher and narrower than the standard seat and supports a sporty riding style thanks to its active seat position. With a seat height of 840 mm and an inner leg curve of 1,875 mm, it is particularly suitable for tall riders.

CENTRE STAND

The stable centre stand ensures a safe stand for the motorcycle even on slopes and offers advantages, for example, when refuelling, mounting cases and topcases or checking tyre pressure. The motorcycle also takes up less space when parked upright.

TINTED WINDSCREEN

The tinted windscreen emphasises the sporty character of the bike. The scratch-resistant coating ensures long-term unimpeded visibility. Same design and size as the standard windscreen.

ENDURO FOOTREST

The Enduro footrest has a wider and longer tread area and therefore offers more support and non-slip footing. This enables better vehicle control when riding off-road in a standing position without restricting the operability of the gear lever.

To be fitted and/or enabled in a specialist workshop, ideally at your authorised BMW Motorrad dealership.

PRO GEAR-SHIFT ASSIST

The shift assistant Pro allows shifting up and down in almost all load ranges and engine speed ranges without actuating the clutch or throttle. The assistant thus ensures noticeably reduced shifting times, a relief of the clutch hand and thus greater comfort and dynamics.

RETROFIT SET FOR HEATED GRIPS FOR VEHICLES WITH/WITHOUT CRUISE CONTROL (NOT SHOWN)

No more cold hands: This is ensured by the electric heating grips with multi-stage control. This increases comfort and provides more safety, because with warm hands and more feeling in the fingers, the vehicle can simply be controlled better. The heated grip is conveniently operated via a combination switch on the handlebars.

To be fitted and/or enabled in a specialist workshop, ideally at your authorised BMW Motorrad dealership.

PRO RIDING MODES RETROFIT SET (NOT SHOWN)

The Pro riding modes can be retrofitted using an enabling code. Riders of older motorcycles therefore do not have to do without modern safety features. Depending on the year of manufacture, retrofitting is possible with the Pro, Pro with DTC or Pro with ABS Pro, DTC and HSC modes.

To be fitted and/or enabled in a specialist workshop, ideally at your authorised BMW Motorrad dealership.

CRUISE CONTROL RETROFIT SET (NOT SHOWN)

The electronic cruise control can be activated from 30 km/h and keeps the riding speed constant. This makes it possible to enjoy longer motorway stretches in a relaxed style. The function is deactivated on braking, and the selected speed is automatically adopted after activating the resume button.

To be fitted and/or enabled in a specialist workshop, ideally at your authorised BMW Motorrad dealership.

HILL START CONTROL RETROFIT SET (NOT SHOWN)

Park or pull away on up or down gradients, even with a passenger and heaps of luggage on board. Also available as optional equipment.

To be fitted and/or enabled in a specialist workshop, ideally at your authorised BMW Motorrad dealership. For more detailed information, contact your authorised BMW Motorrad dealership or go online at [bmw-motorrad.com](https://www.bmw-motorrad.com)

NAVIGATION & COMMUNICATION

BMW MOTORRAD NAVIGATOR VI

With the multifunctional Navigator VI, route planning becomes child's play. The system with 16 GB flash memory and a five-inch touch screen always shows the right way. Thanks to the circular polarisation filter (CPOL), the waterproof display is easy to read even in direct sunlight. The high-resolution screen in a casing similar to a smartphone provides all the essential information and ensures that you can see the big picture required in every situation. Numerous additional functions make planning and touring an exciting experience. Plan your routes can be created according to your personal preferences and enjoy driving on winding and quiet side roads. In unknown terrain, the "round trip" option is a good choice as it reliably guides the rider at the end of the tour back to the starting

point. The Bluetooth connection to the BMW Motorrad communication system and the optional Smartphone Link app enable multimedia on the go: navigation announcements, telephone calls and music streaming as well as the retrieval of weather forecasts or traffic jam information are no problem. Navigation preparation adds further functions such as "My Motorcycle", and the multi-controller on the handlebars offers an alternative control option. Choose the pre-installed map data, and you will always be up to date thanks to lifelong, free map updates.

Note the differences in national-market versions. Only available in conjunction with OE navigation preparation.

1 BMW Motorrad Navigator VI

2 Navigation preparation retrofit set (not shown)

SAFETY

LED AUXILIARY HEADLIGHTS

The powerful LED auxiliary headlights ensure the required vision in poor visibility conditions.

To be fitted and/or enabled in a specialist workshop, ideally at your authorised BMW Motorrad dealership. The auxiliary headlights are approved for use as fog lights, and may only be used in poor weather conditions. Country-specific road traffic regulations apply.

ENGINE PROTECTION BAR

The robust engine protection bar, made of polished stainless steel, reliably protects the cylinder area against damage without restricting the rider's freedom to lean the machine. The robust tube construction will even take hard knocks and prevent major fall damage on asphalt.

CYLINDER HEAD COVER GUARD

The stainless steel cylinder-head cover guard provides excellent protection for the cylinder head cover, preventing scratches and damage caused by flying stones. It has been perfectly matched to the vehicle, is equipped with a large rubber bumper and optimally emphasises the design and contours of the boxer engine.

SAFETY SCREW FOR OIL FILLER CAP

The safety screw for the oil filler neck is locked using a special Allen key, preventing theft of the cover. At the same time, unauthorised access and contamination of the oil by foreign substances is prevented. The high-quality aluminium lock has a BMW Boxer inscription.

PROTECTIVE GLASS FOR 6.5-INCH TFT DISPLAY

The protective glass reliably protects the 6.5-inch TFT display from dirt, flying stones and damage. The tempered glass has an anti-glare and anti-reflective surface, so that it is still easy to read the TFT display in off-road use. With BMW Motorrad inscription.

DAYTIME RUNNING LIGHT RETROFIT SET (NOT SHOWN)

ABS PRO RETROFIT SET (NOT SHOWN)

To be fitted and/or enabled in a specialist workshop, ideally at your authorised BMW Motorrad dealership.

RETROFIT SET FOR ANTI-THEFT ALARM (NOT SHOWN)

NEW

Strong protection from theft: If the motorcycle is moved or struck violently, the anti-theft alarm system responds with a clearly audible signal and a flashing warning light. The acoustic and optical warning will draw the attention of passers-by quickly. The alarm system is activated automatically when the ignition is switched off.

Note the differences in national-market versions. To be fitted and/or enabled in a specialist workshop, ideally at your authorised BMW Motorrad dealership.

TYRE PRESSURE CONTROL RETROFIT SET (NOT SHOWN)

Tyre Pressure Control (TPC) with all functions can be retrofitted by installing the control unit. TPC provides reliable information about the current tyre pressure and warns the rider about pressure loss at an early stage. The corresponding notifications and instructions are provided by the on-board computer in the cockpit.

To be fitted and/or enabled in a specialist workshop, ideally at your authorised BMW Motorrad dealership.

MAINTENANCE & TECHNOLOGY

POWER SOCKET

Electronic devices can be connected to the vehicle electrical system via the 12V power socket. One example of this is the BMW USB charger, which can be used to charge and operate mobile phones and MP3 players with an appropriate interface while riding.

To be fitted and/or enabled in a specialist workshop, ideally at your authorised BMW Motorrad dealership.

Original BMW Motorrad equipment is available from your authorised BMW Motorrad dealership.
